

# WE'VE GOT SOMETHING TO **Shout** ABOUT!

# SAMEPAGE™

## Experience A Major Breakthrough - MediaShout® & SamePage™ TOGETHER!

Worship communication and spontaneity is revolutionized with the integration of MediaShout® and SamePage technologies! Worship leaders will now be able to use the **SamePage** Digital Music Management System to **communicate directly with MediaShout® software**. It is now possible to synchronize music lists and to simultaneously notify the tech team of new songs being added or modified for instant presentation. Finally, the entire sanctuary is integrated through direct communication, thereby allowing the stage and tech booth to be directly linked, or as we like to say it, "to have **everyone on the SamePage.**"

SamePage is the world's first fully integrated digital music management system! With a SamePage Music System, worship leaders finally have freedom from all of the paper issues that they face each week. No more filing, copying, transposing, or lost, damaged, misplaced music. Log on and set your playlist from home. With SamePage, **all aspects of worship are fully integrated** and better yet, now it communicates with MediaShout®. If you want true freedom from mundane music management tasks, SamePage is your answer to planned spontaneity!

# NOW WE'RE ALL ON THE SAME PAGE!

# media Shout®

MediaShout® now literally reaches out to incorporate the latest in electronic music display technology from SamePage™. With the free downloadable SamePage update or for new MediaShout® Standard Edition users, the stagebound worship leader is finally connected to the presentation team. No more guessing what song is being added or when to display lyrics or messages. MediaShout® is pleased to be the **exclusive presentation link for the incredible SamePage music system.**

As the leading presentation software for churches MediaShout® turns your computer in to a complete presentation solution - providing song lyrics, bible verses, message points, announcements, independent audio, DVD, internet, video and PowerPoint™ delivery. From the basic MediaShout® Express to the new Version 3.5, MediaShout® meets the needs of any church media team. Combined with the planning tools in **Shout Music Manager™**, the most current media from **The Shoutable Store™** and live internet training from **MediaShout® University** your ministry's media needs can all now be met with one family of resources.

**Download an evaluation version and get more information today. Now works with Windows® XP and Vista!**
